## More information about your UK ENIC statement

### How qualifications are evaluated and compared

The United Kingdom is a signatory to the Convention on the Recognition of Qualifications concerning Higher Education in the European Region, 1997; UK ENIC is the UK's national qualification information centre. The Convention sets out the broad guidelines by which international qualifications are recognised in a signatory country.

UK ENIC has further developed its evaluation system, so that the Statement of Comparability can fully reflect the range and type of qualifications received from across the world.

The UK ENIC Band Framework<sup>®</sup> allows for a formal qualification at any level of any education system to be mapped across to a comparable level within the education systems and frameworks operating across the UK. This process is guided by the principles of the Convention; it is objective, fair, and rigorous.

The above diagram gives an overview of UK ENIC's evaluation process. There are 16 hierarchical, learning outcome-based Bands, which are independent of the nominal distinctions between secondary, undergraduate and postgraduate cycles of study. Significant differences exist between national education systems, so it is not, for instance, automatically the case that a Bachelor degree in one country will compare directly to a Bachelor degree in the UK.

This analysis is separate from any consideration of the grades or marks achieved by an individual. A higher grade in an examination assessing a lower level learning outcome does not necessarily mean a higher level outcome is being achieved. To give a full picture to an employer or institution, you should present a range of evidence, including your transcripts that show your marks and grades, module-by-module.

You can find out further information about the UK ENIC Band Framework<sup>®</sup> at [www.enic.org.uk](http://www.enic.org.uk)

### Showcase your skills

To give a full picture of your achievement, knowledge, expertise, skills, and experience, do your UK ENIC statement.

Present a full range of evidence to the employer or that they can fully understand your qualifications and skills:

- Qualification final certificates
- Transcripts with modules and grades
- Your UK ENIC statement(s)
- CV featuring experience, skills, attributes
- Portfolio of work, if appropriate

Remember to include translations of your CE transcripts, if necessary.

### Professional recognition

To identify the competent authority for your grade Regulated Professions Register on GOV.UK

To identify whether a licence is required to carry out a craft in the UK, visit the Licence Finder Tool on GC

### Qualification levels in the UK

The comparability statement references the frameworks of the different nations of the UK:

- the RQF: Regulated Qualifications Framework (England and Northern Ireland)
- the SCQF: Scottish Credit and Qualifications Framework (Scotland)
- the CQFW: Credit and Qualifications Framework for Wales (Wales)
- the FHEQ: the Framework for Higher Education Qualifications (England, Wales, and Northern Ireland)
- the FQHEIS: the Framework for Qualifications in Education Institutions in Scotland (Scotland)

To identify other qualification types, eg NVQs, the levels referenced within your Statement of Comparability <https://www.gov.uk/what-different-qualification-level-of-qualification-levels>

Your unique UK ENIC reference number: 4002384439 Meysam Zarghami  
Please quote this number in all your correspondence with us

Dear Meysam Zarghami,

We are pleased to enclose your Statement of Comparability.

Your qualification evaluation has been carried out carefully by experienced credential evaluators. The evaluation expresses how the overall level of a qualification compares to qualifications in the UK. This comparability relates to the qualification itself - your individual marks or grades do not play a part in qualification comparison.

There is more information about your evaluation on the reverse of your statement. You can read more about our methodology and evaluation criteria at [www.enic.org.uk/individuals/how-we-check-qualifications](http://www.enic.org.uk/individuals/how-we-check-qualifications)

Your statement has a number of security features. These make altered statements easier to detect. Employers, trade and professional bodies, and educational institutions can also contact UK ENIC to verify statements. These measures protect the integrity and value of your UK ENIC statements.

If you have queries or if you require further assistance, the easiest way to contact us is to go to [www.enic.org.uk](http://www.enic.org.uk) and log-in using your UK ENIC registration details. There, you can use the online messaging to contact our customer service team. Alternatively you can telephone us on +44 (0) 330 912 0030.

Please note that we are unable to deal with queries about your statement after six months from the date of issue.

UK ENIC evaluations are not binding and have no legal force - their status is as guidance only. The final decision about suitability of a qualification or person for a study place, job, or trade/professional status always rests with the admitting body.

We respect your data and your privacy and it is our policy that information relating to an individual application will not be passed on to, or discussed with, third parties without the prior consent of the applicant.

Yours sincerely

Liam Taylor  
Information Officer
